Welcome to Chennai!

The cultural capital and gateway city of South India, Chennai is renowned for its education system and one of the highest literacy rates in India. The city is also a keeper of South Indian artistic, religious and culinary tradition.

Our Chennai Intelligent Operations Center is one of our 50+ centers around the globe dedicated to enabling your journey to intelligent operations, and one of 30+ centers that specialize in driving exceptional innovation needed to build an intelligent finance operating model that grows business value.

This facility, like all our other locations, is fully ISO® 14001 Environmental Management System-Certified. From smart meters to renewable energy, we continue to assess and minimize how we impact our environment.

Our diverse team of industry, functional and domain experts work together in a collaborative and innovative space at this facility.

This includes professionals focused on core finance operations which transform payables, receivables, reporting, and governance processes to increase speed, accuracy, controls, compliance and strategic finance operations which provide the real-time data and insights needed to make better business decisions.

It is here where we would work with you to transform your finance operations from being a transactional service to a strategic asset that can help you outmaneuver uncertainty, maximize investments and boost growth and shareholder value.

At the heart of our approach for accelerating the journey to digital, data-driven, intelligent finance operations is our SynOps platform.

SynOps orchestrates the optimal combination of human + machine talent, driven by data and insights, to create an evolved, intelligent operating model, to deliver target business outcomes.

The SynOps dashboard help us continuously monitor the performance of people and technologies. Ultimately, giving us the control to get ahead of issues before they become critical.

Exceptional talent.
Innovative technology.
Powerful Insights

SynOps is powering intelligent operations.
