

THE FUTURE HOME IN THE 5G ERA

VIDEO TRANSCRIPT

Next generation strategies for hyper-connected living.

Home. What will home be in the future.
“At home” is everywhere
And everywhere you need to be.

A fluid experience for the hyper-connected
lifestyle. Highly personalized services and
connected, intelligent things anticipating the
needs of every generation.

The technology is here
Converging technologies that can understand,
anticipate, predict

The Internet of Things
Artificial Intelligence
Edge Computing
Advanced Data Analytics
eSIM

In the era of 5G our lives will be transformed.

Expectations for success have evolved
Moving beyond isolated point-to-point device
solutions

Moving past connectivity fragmentation
Protecting and securing data and ensuring the
highest ethical standards.

The market opportunity is immense

The connected home market will grow from
\$20 billion today to \$37.3 billion in 2023
according to Ovum.

For CSP Growth
Communications Service Providers (CSPs) are
uniquely positioned
Well-established trust
Superior customer experience
The ability to deliver 5G-enabled mission-critical
infrastructure to lead the ecosystem
